

Second Grade

November & December 2019

A Look Back at

As winter snuggles upon us, we will be continue to cozy up with our math program Investigations this year. This program is designed to support students to make sense of mathematics and learn they can be mathematical thinkers. Students and Parents are recognizing a change in their work. Students are required to explain their thinking to fewer problems, Find different ways of solving the same problem, and play games to reinforce important concepts.

Our students are learning that authors write for different purposes and are learning that authors use features such as headings, captions, and diagrams to help them get a complete understanding of new facts and information.

The first unit in science was about material Engineers and all about matter. We explored flexibility, hardness and absorbency in many experiments. The end of unit was understanding matter and creating google slides based on the unit learned.

Thanks Parents for coming to our classroom during Education week! Some classes enjoyed Disguising our Turkey for Thanksgiving and Family Tree bulletin boards.

A Peek Ahead to

In our Second Grade pilot classrooms, Morning Meetings continue to be a great start to every day. Students love responding to prompts and questions and sharing their thoughts and ideas. The activities put a smile on everyone's faces and pave the way for a great day!

We are warming up to our next units in Math Investigations. addition and subtraction, Modeling with Data and Linear Measurement.

Our students are learning that authors write for different purposes and are learning that authors use features such as headings, captions, and diagrams to help them get a complete understanding of new facts and information.

Our winter journey will also lead us to becoming authors of some informational writing of their own. We will even meet a few fantastic animal characters by reading a folk tale or two.

In our next science unit, we are Looking forward to learning all the world's water and the very important role it plays on our lives.

Enjoy your Holiday vacation with you and your family.

Inside the Classroom

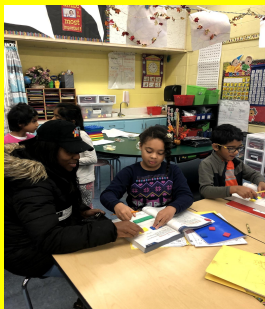

November & December 2019

Parents come in our classroom for Education week.

Disguising the Turkey for Thanksgiving.

Interviewing and making a Tie for our friends.
